- 3 Breadcrumb** Breadcrumbs appear at the top of pages and provide links back through the path you navigated through to get to the current page.
- 4 Course Menu** The course menu includes links to the content in the course. The order of the items in the menu is customizable. It can be arranged by subject or the order in which you would like students to progress through the
- 5 Banner** A banner can be included at the top of each page in your course.
- 6 Content Frame** The Content Frame is the main area of the browser window where content items and tools are displayed.
- 7 Drag and Drop** Items in the Main Content Area and Course Menu can be repositioned to reflect the way you want it displayed. The Drag and Drop Arrows enable you to use the mouse to re-position items directly on a page by clicking on the item, dragging it to the desired location, and releasing the mouse button.
- 8 Course Files** Upload and store files that are used in the course content in this central repository. Create folders to organize your files and then link the files to areas of the course.
- 9 Control Panel** The Control Panel is the interface for managing the content, features, and appearance of a course or organization. It is accessible to users based on the privileges assigned to their Course Role. Students do not see the Control Panel.

The screenshot displays the Blackboard course environment for 'Introduction to Oceanography'. The interface includes a top navigation bar with 'My Institution UNIVERSITY' and navigation links for 'My Places', 'Home', 'Help', and 'Logout'. A breadcrumb trail shows 'Introduction to Oceanography' > 'Home Page'. A left-hand 'Course Menu' lists various course components like 'Syllabus', 'Chapter 1', and 'Assessments'. The main content area features a banner for 'Introductory Oceanography' and a 'Home Page' section with a 'To Do' list (including 'What's Past Due' and 'What's Due' sections) and 'What's New' updates. A 'Needs Attention' section shows 'Survey Submitted (5)'. At the bottom left, the 'COURSE MANAGEMENT' section contains the 'Control Panel' and 'Files' area. Numbered callouts (1-9) point to the Help icon, Edit Mode button, breadcrumb, Course Menu, banner, Content Frame, Drag and Drop arrows, Course Files, and Control Panel respectively.

Glossary

Content Area	Content Areas are containers dedicated to organizing and displaying content items. Users must have the appropriate application to open any content item file attachments placed in Content Areas. Learning Modules, assessments, and links to tools may also be added to content areas.
Contextual Menu	Contextual menus are drop-down lists that provide access to additional actions associated with an item. The menu is accessed by clicking an Action Link (chevron shaped icon).
Course Cartridges	Course Cartridges are created by textbook publishers. Course Cartridges are content packages of materials that are imported into course. Instructors must obtain a download key from the publisher to get this content, and students may need to obtain an access key to view the content.
Grade Center	The Grade Center is a customizable feature for recording, tracking, and analyzing performance. It interfaces with Assessments and Assignments automatically, and with any Discussion Board forum or thread, Blog, Journal, or Wiki that is set up for grading.
Modules	Modules are containers for content that is gathered from other parts of the course such as Tasks and Calendar items. Modules can also hold tools like a calculator or text editor. Module pages can display several modules and users can reorder them and even choose which ones they see. Module pages can appear within courses.
Learning Modules	A Learning Module is a set of Content Items with an accompanying path for progressing through the items. The path can be set so that students must view content sequentially or to permit students to view the content in any order. All types of content, such including text, images, video, Assignments, and Assessments may be included in a Learning Module.
Availability	Availability determines whether content or features are accessible to students. Availability can be set to yes or no, or it can be related to a specific date and time range.
Help	The Help icon appears in the top frame. The Help icon can be set by the System Administrator to point to institution resources for providing assistance to users.
Action Link	An action link is an indication of the presence of a contextual menu enabling the user to perform actions related to a specific item.
List View	The List View of the Menu items displays the names of the file system.
Folder View	The Folder View of the Menu items displays the tree structure of the file system. This view also provides the ability to expand and collapse folders.
Text Editor	The Text Editor can be turned on or off. When the Text Editor is enabled, you can add links, attach files and images, or format text. When the Text Editor is disabled, you can edit in plain text.
Multi-Select Box	The multi-select box is used for selecting multiple items from a set.
View Results	The View Results controls are used to edit how many items appear on a page following a search.
Course Menu Item	Course Menu Items are links to Content Areas, tools, external links, internal links, or elements used to help organize the menu.
